

Montana Plein Sud Residence ★★★★★

From 17th Decembre 2011 to 5th May 2012

Ski, fun and relaxation in a unique setting...

Val Thorens' first 5 star residence, this new luxury establishment at the foot of the slopes enjoys a wonderfully sunny position with uninterrupted views over a mountainous bowl and the legendary Cime de Caron.

Designed to provide the very best in skiing and relaxation, the Montana Plein Sud residence enjoys an ideal situation at the heart of Val Thorens' ski area, with direct access to the Plein Sud chair lift allowing guests a quick and easy route to explore the 3 Vallées. The nearby Caron shopping centre offers a range of shops, and the resort's sports centre, restaurants, childcare facilities and French Ski School kids' clubs are all within close proximity, so holidaymakers can get on with enjoying a hassle-free stay.

Authenticity with a modern touch...

Far from the clichés of a typical "mountain" apartment, architect Jean Pierre Chiantello (who has designed a range of architectural projects in Val Thorens) and interior designer Cécile Bukowski (whose work can be seen in Courchevel and Val D'Isère) have striven to create a resolutely contemporary and welcoming living space. It is a place which resembles its guests: unique and exacting, and somewhere you will feel completely at home during your mountain break.

The residence comprises 37 spacious, comfortable apartments, and its many living spaces offer an array of different atmospheres. The building materials used give way to authenticity, with wood and stone alongside an unlikely selection of other materials and shapes which unite to create a harmony built from contrasts: pure white and pastel colours, the cold snow and the indispensable heat of the fire, the transparency of glass and the qualities of wood, the warmth of wool and the elegance of fur, contrasts between pure lines and the sensuality of curves, making a welcoming and surprising combination... The residence has been constructed according to the latest environmental and climatic standards (solar panels, heat pump, LED lighting system, GTB energy system...)

Take the time to really live...

A ski holiday is a time to enjoy special get-togethers with family or friends. Forget the stress and struggles of the daily grind, and get away from it all with an active, beneficial break at the Montana Plein Sud. The residence offers a range of hotel facilities
